Available in five lengths, in either standard or high output and with interlinking capabilities, Reed Premier creates customized lighting solutions for any space. Designed to attach directly beneath underbin cabinetry, its slim profile mounts effortlessly to provide superb quality illumination exactly where it's needed. Its multiple energy-saving components include an automatic shut-off feature, optional occupancy or vacancy sensor and a capacitive touch dimming feature with last state memory that allows the user to tailor its intensity to any specific task with ease.

Proudly designed and manufactured in Grand Haven, Michigan.

Reed Premier's properly diffused light provides a softly blended light pattern that reduces eye strain.

Features

- · Choose from standard or high output
- Interlinkable
- Automatic shut-off after 10 hours (± 15 mins.)
- Continuous dimming from 100%—15% with last state memory
- Optional occupancy or vacancy sensor available as a modular accessory or integrated into the fixture

Certifications

ETL listed: compliant to UL 153/8750 & CSA C22.2 No. 9; FCC Part 15 Class B; TAA; BAA; CEC Title 20, NYC #10A0477

California Residents

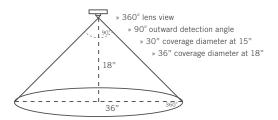

WARNING: This product may expose you to chemicals including DEHP and/or lead which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov

Sustainability Notes

- Made with fully-recyclable anodized aluminum and plastic
- Energy-saving features such as auto shut-off and dimming included; occupancy/vacancy sensors available
- Lower power consumption
- Mercury-free
- Potential LEED points: Interior Lighting (possible 2 points), Interior Lighting Controls (possible 1 point). For more LEED information please visit https://new.usgbc.org/leed-v41

How sensors work

Our occupancy and vacancy sensors use Passive Infrared (PIR) technology to control the fixture power. Based on movement occurring within a specified detection range within a period of time, the fixture will automatically power on or off depending on its programming.

Photometric Data

Footcandle outputs measured at 18" from the work surface.

Options & Accessories

Integrated Occupancy Sensor

Programmed into the fixture, the integrated occupancy sensor powers the fixture off after 30 minutes of inactivity and back on after sensing movement (auto-on/auto-off).

Integrated Vacancy Sensor

Programmed into the fixture, the integrated vacancy sensor powers the fixture off after 30 minutes of inactivity (manual on/auto-off).

Angle Mount Bar for

Metal plate that attaches to

the underside of a wooden

surface to allow for Angle

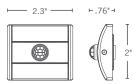

in white or black. Qty. 1.

Please call Inside Sales to

Mount application. Available

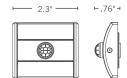

Wood/Laminate

Application

Modular Occupancy Sensor

Powers the fixture off after 30 minutes of inactivity and back on after sensing movement. Connects to fixture with included 1" end-to-end connector, adding a total of 3" to the fixture length. Certified UL 153 portable luminaire accessory CSA C22.2 No. 250.4.

Modular Vacancy Sensor

Powers the fixture off after 30 minutes of inactivity. Connects to fixture with included 1" end-to-end connector, adding a total of 3" to the fixture length. Certified UL 153 portable luminaire accessory CSA C22.2 No. 250.4.

Angle Mount

Mounts magnetically and allows for a 23 degree tilt of Reed Premier in either of two directions. Perfect for applications where directional light is required. For use with wood surfaces, the Angle Mount Bar for Wood/Laminate Application is required.

Power Supply Support Bracket - Wood/Laminate Application

Mounting bracket attaches to the underside of a wooden work surface to conceal power supply brick. Includes mounting screws. Available in white or black. Oty. 1.

Power Supply Support Bracket - Magnetic Application

Mounting bracket attaches to the underside of a metal work surface to conceal power supply brick.

Available in white or black.

Qty. 1.

Adhesive Horizontal Cord Manager

Adhesive cord managers adhere to surfaces to horizontally manage cords with a clasping cord guide. Included with every fixture purchase. Available in silver only. Qty. 2.

specify size.

Magnetic Horizontal Cord Manager

Magnetic cord managers magnetically mount to metal to horizontally manage cords with a feeder slot. Available in chrome finish. Qty. 2.

Panel Clip Cord Manager

Panel clips mount by pinching into panel slots to create a loop to manage cords through. Available in black only. Qty. 2.

17" Vertical Cord Manager

17" adhesive cord manager adheres to surface and vertically manages cords with a clasping cord guide. Available in white only. Qty. 1.

Specifying Notes

- If automatic shut-off feature is not desired, please specify by contacting Inside Sales at (800) 526-5658.
- Includes screw and magnet mounts for wood/laminate or metal application.
- Two adhesive cord managers included with each fixture.
 Additional cord managers are available for purchase.
- 8" and 30" interlinking cords are included with adder fixtures.
- A 65-watt power supply is required when interlinking.
- Total interlinked system wattage cannot exceed 54 watts.
 Refer to the interlinking combination charts at right for acceptable combinations.
- If a 4000K color temperature is specified, please contact Inside Sales at (800) 526-5658 for a lead time estimate.
- Do not interlink 58" high output fixtures.
- Do not interlink with any other fixture family.
- It is not recommended to interlink standard and high output fixtures.
- If using a sensor with the fixture, only one sensor is required per string of interlinked fixtures. See diagram below for order of connection:
